**Assunto:** Read this interview by my late grandfather General Uchoa: "Encounters with the Unknown"

My grandfather Alfredo Moacyr de Mendonca Uchoa would be celebrating his 100th birthday on April 21st, 2006.

Brent Raynes, the editor of "Alternate Perceptions" an online magazine that specializes in mystery cases, has published on this month's issue, an interview with my grandfather. It was done by the late journalist Bob Pratt, in Brasilia, several years before my grandfather's death. Bob Pratt gave me a copy of the original tapes of this interview, shortly before his own death, last November.

Read below the article entitled "Encounters with the Unknown".

I am grateful for Bob Pratt's interview, and for his kindness in sending me the tapes. I'm also greatly thankful to Brent Raynes, who has now also become an enthusiast of my grandfather's fantastic and amazing encounters with UFO's.

I recently gave "Alternate Perceptions" an interview about my grandfather's incredible encounters with UFO's and other metaphysical experiences. It will be published in the next month's issue, in honor of his centenary.

It was a great honor to have known my grandfather. It was absolutely an unique opportunity to view the world through such different lenses. I was a very, very lucky person to be part of his life. He taught me so much, he opened my eyes, my mind and my soul to an extent that few can just dream of. The experiences I shared with him and with most of my family will be forever with me.

Now it is time to share for me some of those experiences with people that did not have a chance to meet him, but that are true seekers of answers to life mysteries, and that, like my grandfather, never cease to seek the whole truth about our universe.
